NORTH BABYLON SENIOR HIGH SCHOOL

NORTH BABYLON, NEW YORK

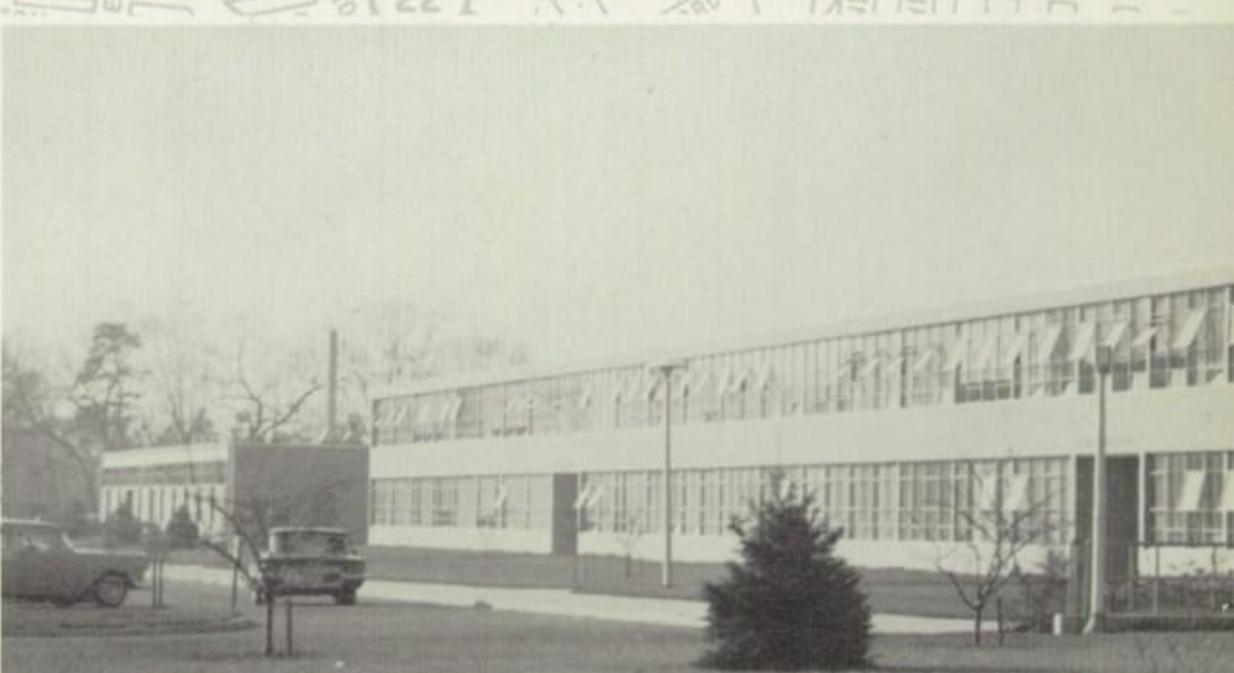

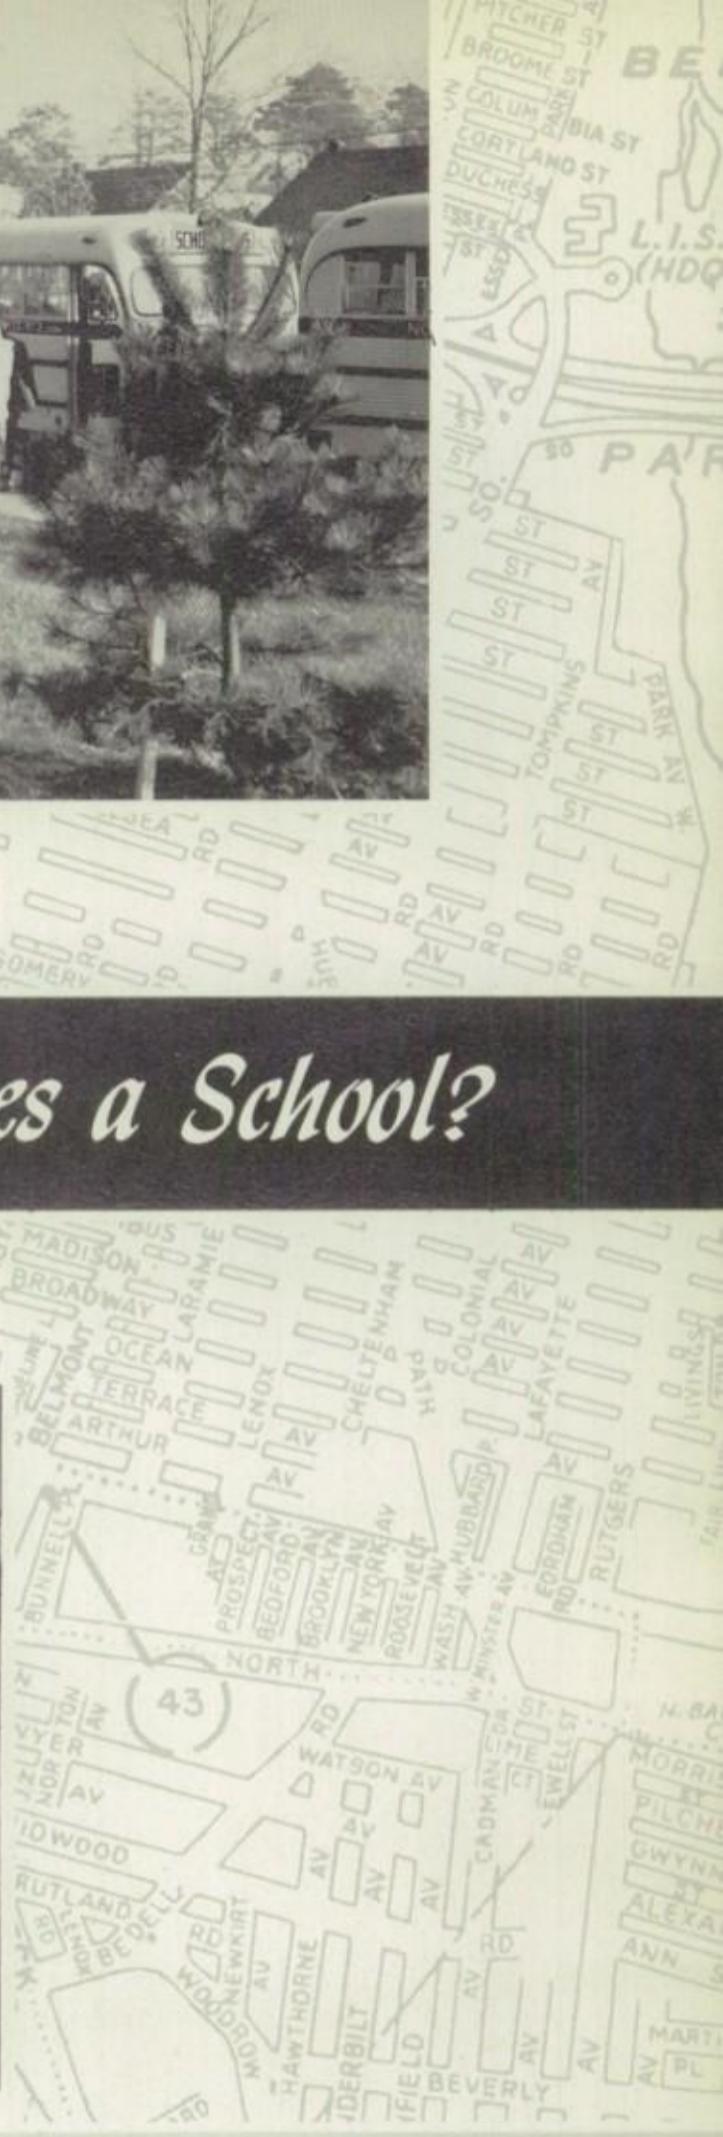

They leave the world of school.

What Makes a School?

The rule is observed—total silence.

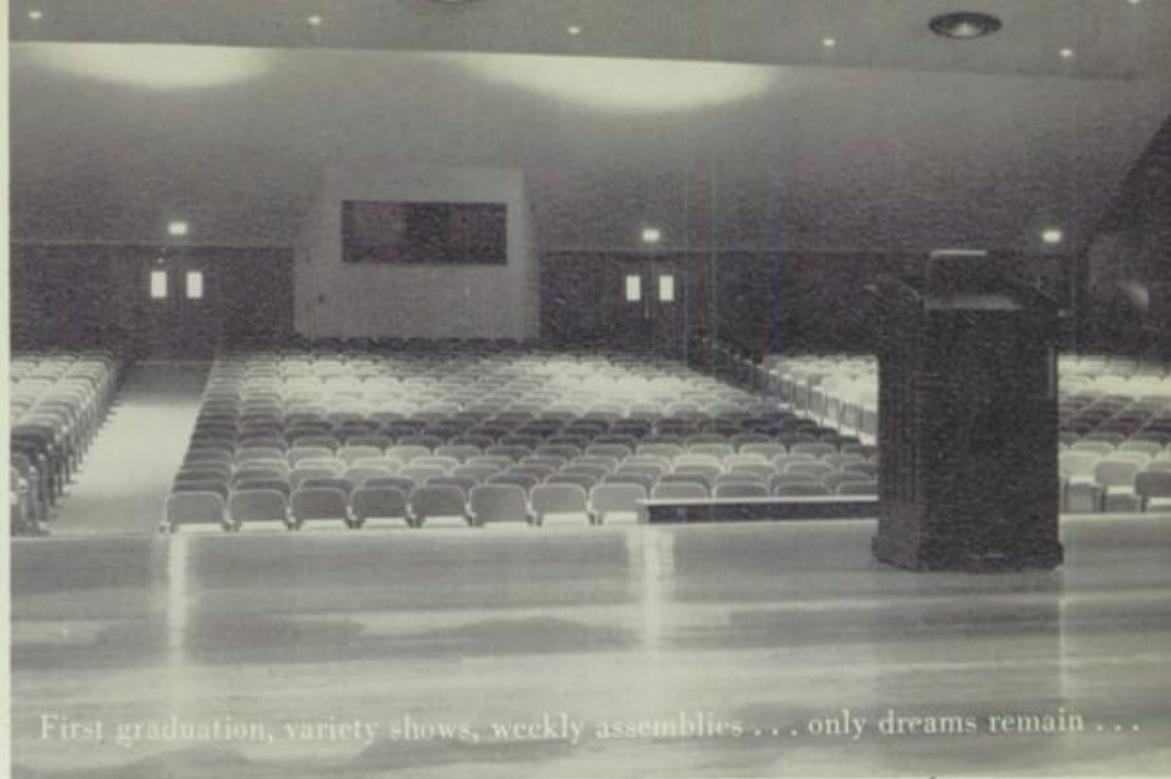

The middle of a busy day

From the greatness of a people we build a nation—but from what do we build a school?

Is North Babylon simply a collection of bricks, steel, and the human machines which occupy the physical structure, or is it a living school, a place where a small community of people is gathered, working alone and together to educate themselves about the world in which they spend their brief life spans.

This is the question which we have asked ourselves. We wanted to discover the meaning of a school—a compilation of books, buildings, and human animals—or a vital, personal, and stimulating organization.

In the 1961 BLAZER we have tried to answer that question.

First graduation, variety shows, weekly assemblies... only dreams remain...

DEDICATION

To Miss Horey

We are proud and honored to dedicate the 1961 Blazer to a sincere and understanding friend, our Assistant Principal, Miss Jacquelyn Horey. We do this humbly in an attempt to acknowledge our appreciation to her for the invaluable aid she has given to our school. Through her encouragement of our activities and through her guidance, our years as students have in every respect been enjoyable and above all worthwhile. We thank you, Miss Horey.

CENTRAL ADMINISTRATION

The District Principal, Dr. William Phelan, is the professional educator who discusses school matters with the Board, and is North Babylon's chief representative to the larger educational unit, the Third Supervisory District, which comprises the western part of Suffolk.

In the making of our school, we may think of these units as the suppliers of our material needs, the services, and the underlying policy, all of which insure our good education.

ADMINISTRATION, FACULTY, COURSES —

The Framework of Our School

School Administration

Stewart R. Jonsson
Principal

As we proceed with our search for the answer to "what makes a school?", we seek to discover the nature of the school principal and his duties.

Mr. Jonsson, our principal, is responsible for the operation of the school in its entirety—from the physical aspects to the determination of courses and curricula. To us students, however, he is most important as the person who assumes the prime responsibility for our good education. Toward this end he has played a most important part in assembling an excellent faculty, in introducing courses which fit our individual needs, in establishing a high school which, though young in years, is complete in every way.

As a professional educator, Mr. Jonsson is ever zealous to improve our instructional program with additional needed courses or by encouraging the use of new but proven techniques. By constructing a firm framework for all of us to work within, Mr. Jonsson has thus helped to make North Babylon Senior High School.

Miss Jacquelyn Horey
Assistant Principal

Business

At N.B. our business department has a large percentage of the student body enrolled in one or the other of its courses.

Pictured below are two of the industrious workers practicing and learning the business of business, and preparing (though they may not realize it at the time) themselves for entrance into "the outside world."

"The Business of America is Business." So said Calvin Coolidge, and though ideas have changed greatly, much of society if not all of it operates with the necessary assistance of people every where in the business world.

English

Words are to interpret as well as to explain. We're not studying English simply so that we can talk about the newest marvel of science, but actually to be able to understand or at least try to understand some of the meanings in life.

Peggy, yours is a special gift—cherish it and I'm sure you shall receive that kind of love and happiness reserved for very special people.

"Reading maketh a full man; conference a ready man; and writing an exact man." Theresa Meyer and Ronald Horner ponder the truth of Francis Bacon's words.

English—written and spoken (and thought!) is communication. It's more than just a conglomeration of rules and grammar mashed together to form a "tool" for communication. Everything, every emotion, every thought is exchanged in words spoken or written and the only time English is not enough is in the rarest cases of thoughts and feelings too deep for words.

Through learning English we can extend our range of expression so much that we can express *new thoughts*, ones that before had just been too complex or too emotional for that little collection of sayings called our vocabulary.

The courses offered in Industrial Arts at North Babylon are designed specifically for the students who either intend to enter business and industry or intend to pursue engineering careers.

Such courses as Mechanical Drawing and Drafting and Design prepare the student for entrance into college or the business world. Others such as General Transportation and Metal give the student a background and working knowledge in the mechanics and procedures in operating cars and trucks.

This instruction is very practical and very valuable for all involved.

This is the scope of Mr. Solat's courses. Take for instance; color mixing. One learns the formations of primary colors—how to mix them, combine them; where to use them. Each bit of this basic knowledge will come into use later in life whether one is painting a room or camouflaging a ship.

Science

The main purpose of teaching chemistry is to encourage young people to consider entering its field as a career. Another purpose is to make clear to all of us how the development of science has a basic importance which, if understood, can help us to make more sound decisions in life.

Chemistry is an organized account of the facts and principles developed by our predecessors and an organized method of processes from which leads to the discovery of new uses or new facts and principles. The systemization and method are quite straight-forward and can be learned by an intelligent person willing to put forth the effort required. Once learned, these facts will lead with certainty to useful scientific or engineering achievement. Without this knowledge the most outstanding genius is helpless.

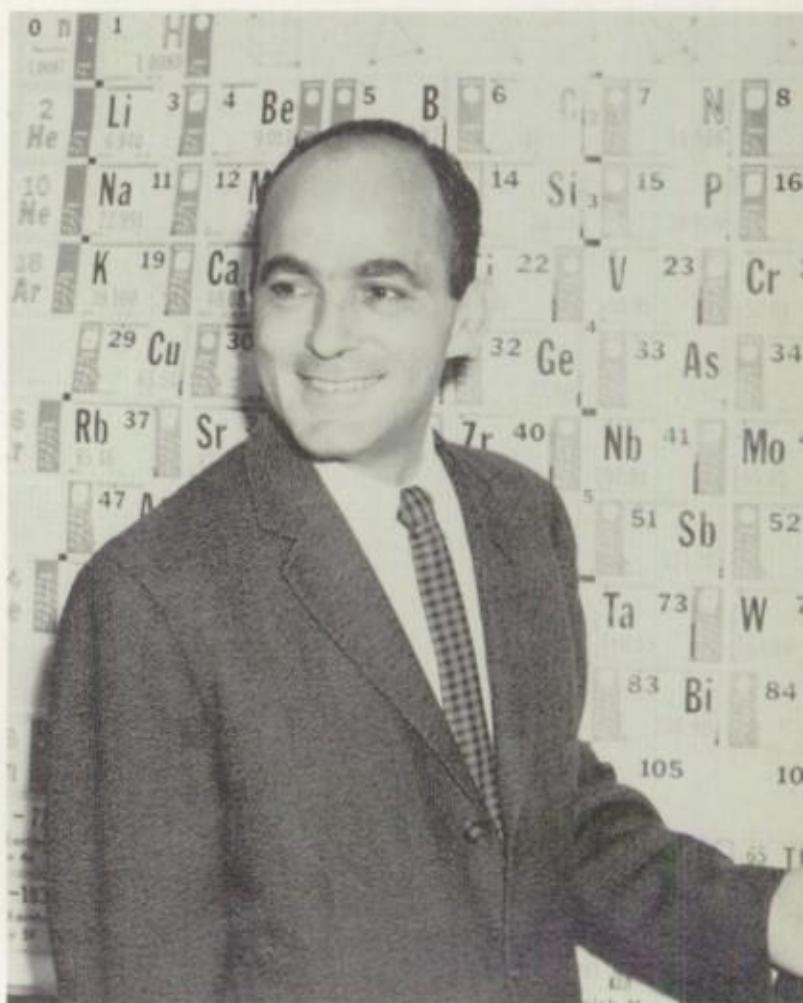

Today, when progress in chemistry is so breathtakingly rapid, when new and challenging projects are being undertaken, when critical issues involving a knowledge of chemical facts must be intelligently resolved, and when our productivity has multiplied many times giving us more leisure to explore other fields, the work of the chemist should be better understood by everyone.

There are so many different versions of the purposes of science that one often wonders whether anyone actually does know what it's all about. However, behind all science, there is the dedication to the betterment of the human condition through technical means.

Through the efforts of an urban and liberal science department we have become more science conscious and have kept on top of the trend throughout the nation. Our motto: "Progress is our most important dream."

Mathematics

Today's great stress on Math and the Sciences is making our Math Department more and more important. Mssrs. TeBordo, Johnson and Smyth have on their hands the job of filling all the little kiddies' minds with various calculi and formulae intended to eventually strengthen their reasoning powers and faculties of logic as well as the job of preparing those budding engineers and mathematicians for their college years.

Languages

Language is communication. Through our present courses in Spanish, French, German and Latin we are expanding our abilities to make verbal contact with people, namely Frenchmen, Germans, Spaniards and University Professors who speak only Latin.

In the modern world if we are to get along as individual people as well as a country we have to be able to speak easily to those of other cultures and languages, and to exchange ideas with them.

At North Babylon as in all high schools the basic function of the language courses is to give a stable structure of grammar, verbs and vocabulary to the student headed for college or simply to the interested student. North Babylon helps expand America through languages.

Physical Education

The recent physical fitness panic and consequent renewal of stress in phys. ed. by President Kennedy will be most strongly felt in the coming years at North Babylon, and we are seeing more and better phys. ed. programs as well as the slowly sure improvement of our own facilities, programs and physical capabilities.

In working with the congenial and understanding group of instructors, more than simply our physiques were developed. As was intended, much of the "Social Development" idea was materialized in the students.

Home Economics

What is sufficient preparation for making a successful home? To help high school girls prepare for making a successful home the Home Economics department, headed by Mrs. Floor and Miss Land, offers five various courses which cover all phases of home-making.

The courses are: Major Tailoring, covering all phases of clothing; Major Foods, all phases of foods and nutrition; Homemaking II, interior decorating, grooming, clothing; Homemaking I, food preparation, family relations; Homemaking V is designed for seniors and juniors to help them be completely self sufficient when they pursue higher education in college or when they engage in business.

A. TeBordo

The man behind the Senior Class for the past two years deserves to be thanked for his efforts. It is only fitting that we begin this, the Senior Section, by telling Mr. TeBordo how we have appreciated his guidance and assistance.

We realize that in the past, we have not always (in fact, very seldom) shown that we know what important work you have done in our behalf, and we realize that much of your work has gone unacknowledged, but now the case is different. Being Seniors, we look back on our high school years to see what we have done during them, and come to the realization that your enthusiasm has been mainly responsible for the success of all of our activities.

An adviser must be patient and understanding, but above all, persistent and enthusiastic. Mr. TeBordo has always kept his spirits high enough to encourage all those about him, and for this we thank him.

However, above all the work and toil, we thank you, Mr. TeBordo, for your friendship.

It has been too often said that a picture is worth a thousand words. If this is so, the 9,000 words on this page should be sufficient to get our message across. The message is this: the biggest ingredient in editing the Blazer is hard work. This, together with creativity in layout and design, copy writing and, the all too important, money raising, made this yearbook a reality.

Perhaps the greatest achievement in high school is to belong to the National Honor Society. Seniors and Juniors (in the second half of the eleventh year) are selected on the basis of high scholarship, exemplary character, outstanding service and significant leadership. A student is eligible only if he qualifies in all these areas.

Soon after the 1961 BLAZER went to press, the spring investiture of Seniors and Juniors into the National Honor Society was held. Although it is impossible to include these students with their previously inducted confrères on the opposite page, it is fitting that tribute be paid to them for attaining this highest high school honor.

The congratulations of students and faculty go to all members.

Library Aides

A most active and interested class in North Babylon Senior High is the Class of 1963. This year's Sophomores made the most of the opportunity to join Senior High School organizations and to take part in the many activities newly opened to them. They contributed a variety show to the year's assembly programs, which was a credit and delight to the class and its officers. Also, they sponsored a "Silver Bells" winter class dance. Mr. Smyth is adviser.

Gymnastics

The boys' Gymnastics Club, meeting after school during the late winter and early spring, this year, has been under the supervision of Mr. Colotti. Participants improve basic skills as well as learn new and difficult ones. Once these have been mastered, the Gymnasts concentrate on form and graceful execution.

Girls Leaders

Girls Leaders' Club is now in its third organized year. Although its membership is concerned with athletic events and awards, the girls are chosen not only for their physical skills, but also on scholastic proficiency and qualities of leadership and service.

Varsity Football

Although their record was not outstanding, North Babylon's Varsity gridsters gained a great deal of experience from their first year of varsity competition. Throughout the gridiron season the Bulldogs were plagued with physical handicaps that put their best players out of action.

Considering the fact that this was our first year of varsity competition and we were playing schools with strong, established teams, the gridsters did a creditable job.

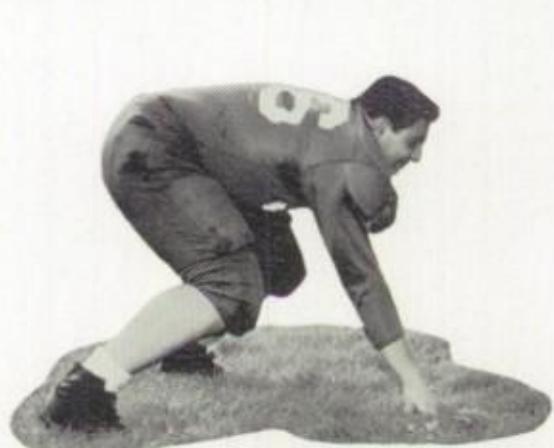

Some of the members, returning from last year to add to the team's strength, were A. Fariello, J. Mittnight, J. Greig, P. Robilotto, G. Ingenito and D. Morton.

Two-four-six-eight! HIKE! And the J.V. Football team is pounding down the gridiron once again. This year the gridsters were coached by Mr. R. Cartier, who also coached our J.V. Wrestling Team.

Turning out for the early fall practice were J. Panullo, F. Quinane, J. Fleming, R. Jesaitis, T. Withers, and many others. With experience behind them and much of the team returning next year, a successful season is hopeful.

The front is all clear but North Babylon gets hit from behind.

Cross Country

The North Babylon Harriers closed their season by placing fifth in the Section XI Cross Country Meet this year. Altogether ten schools were represented in this meet.

Dave Reynolds achieved individual honors by becoming a member of the Section XI Team that won the State Championship in Cross Country.

The team had a fair season, placing second in all of their triangular meets and defeating a strong South Huntington team in a dual meet.

Wisniewski finishes in fine style.

Booters

As the North Babylon J.V. booters put away their uniforms for the year, they closed a season of three wins, five losses, and two ties. Many players showed up for practice and were put through their paces by Coach Axelrod.

Making their mark on the team were such players as R.

Ovens, G. Wedliewski, G. Schwartz, J. Ahrens, and B. Heine.

Some very capable players will be returning next year, with experience behind them, to drive their team to a successful season.

Varsity Basketball

North Babylon's Varsity Hoopsters concluded its second year of varsity competition Friday, February 24, 1961. The season ended at the hands of Patchogue which downed the Bulldogs 90-69. North Babylon completed the season with a non-league record of three wins and 15 losses and a league mark of one win and 9 losses.

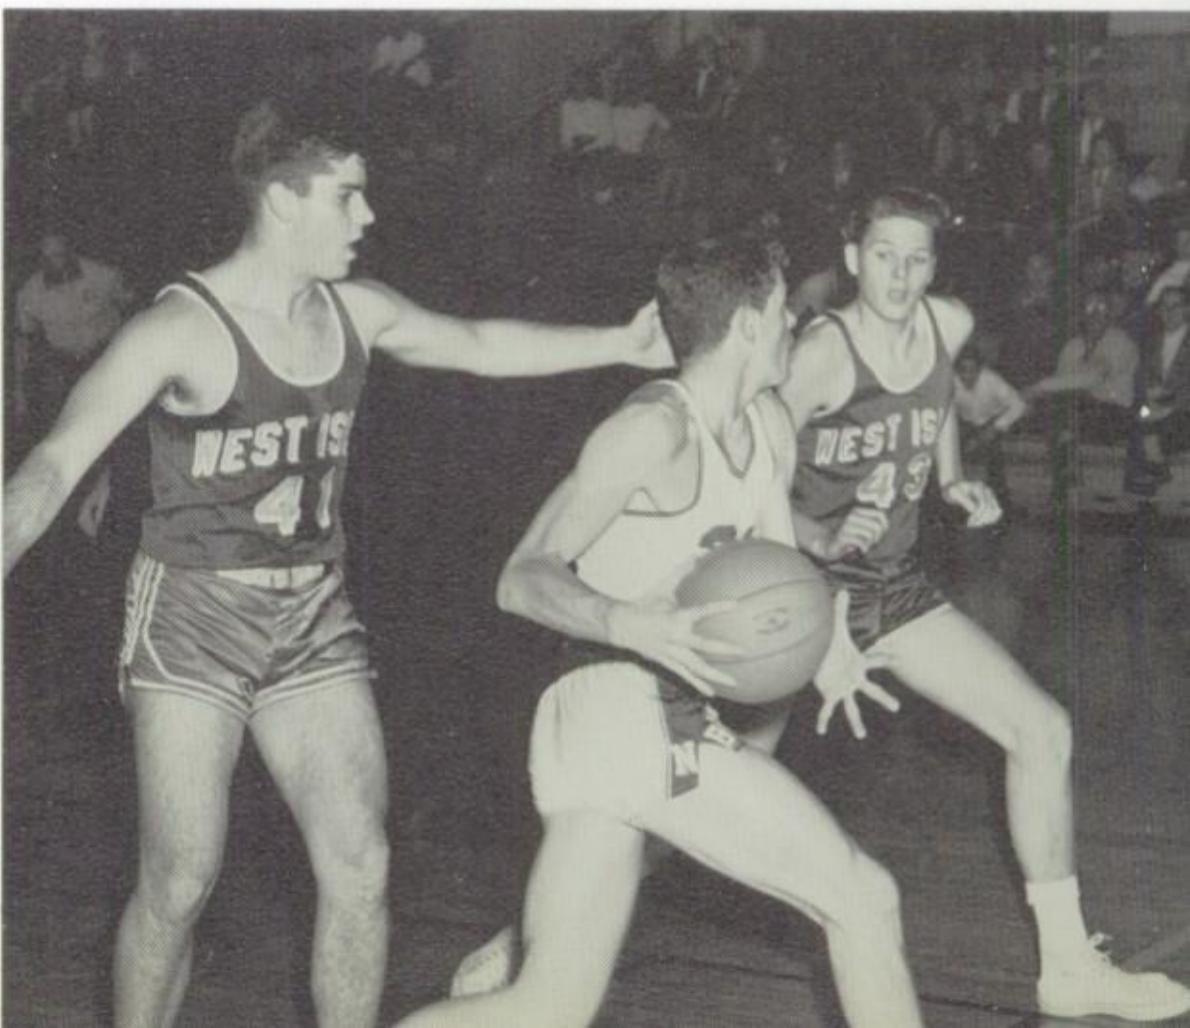

Although the season wasn't too bright, we did finish in some tight scoring games. Dave Reynolds set a new

school record for individual high scorer with a count of 273. Bob Forella was close behind finishing the season with 264 points. Dave Reynolds achieved another honor by making the All-League team.

Unfortunately, the hoopsters will be losing Bob Forella via the graduation route this year, but Reynolds will return to pace the varsity squad to victory in the next campaign.

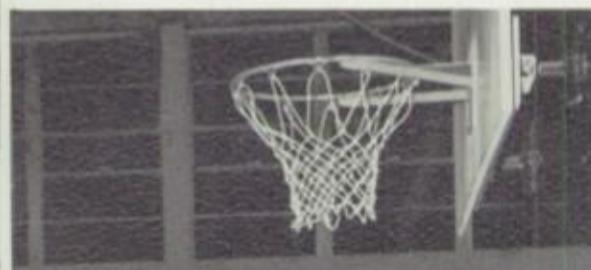

Heads up! Here I come!

Forella makes desperate try for the ball.

Finding an opening, Bob Forella takes the ball in for a basket.

J. V. Basketball

This season the J.V. hoopsters walked off the courts with a record of eight wins and ten losses. Coach McCann was satisfied with the experience the boys had gained and is ready to wallop the opposing teams next year.

Bruce Mineo sunk jump shot after jump shot as he piled up points for the team. No one will ever

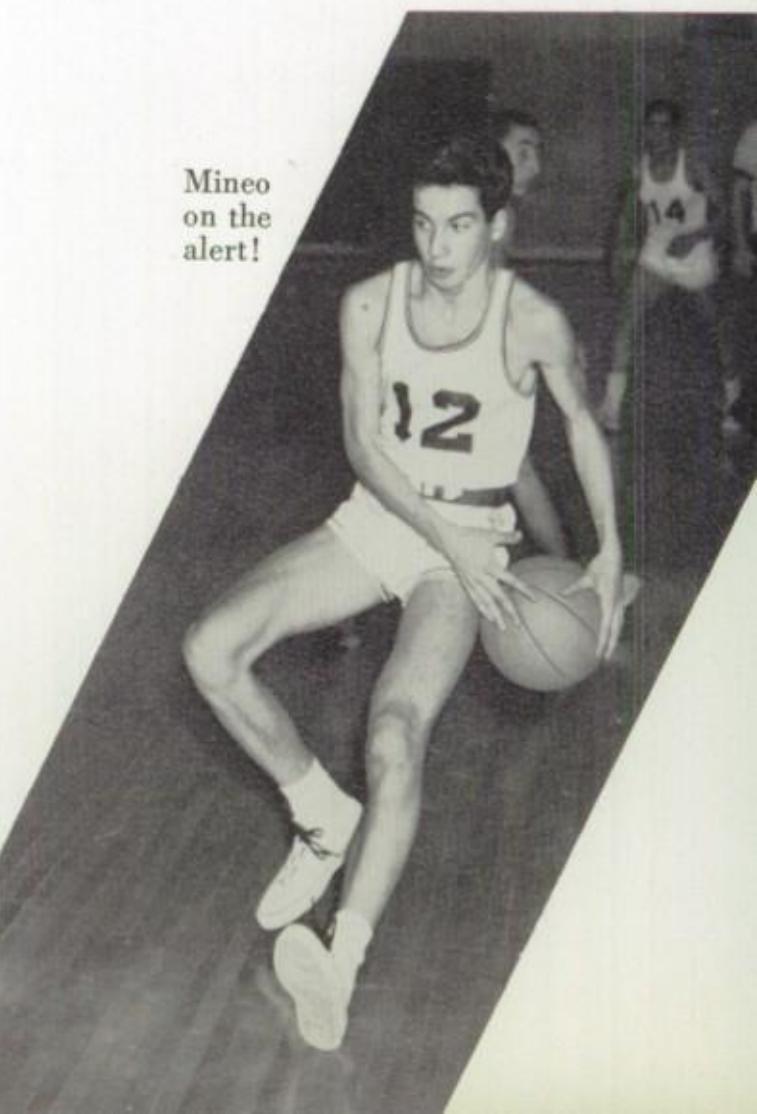

forget the game with West Islip. With just one second left on the clock, Bruce sunk the shot that won the game for us.

Also backing up the team was the terrific shooting of Ricky Walsh and the fine rebounding of Pete Keiner.

North Babylon's Matmen under the capable coaching of Mr. Mahoney closed with a two won, ten lost record. The season closed with many fine grapplers putting forth good records. Returning to the team were D. Lee, P. Robilotto, P. Leopold and L. Kelly. Frank LeMieux, a strong grappler, placed fourth in the League Championships and Tom Torma a shifty man on the mat, placed a strong second in the League Championships. The team finished eighth in a nine team league.

The J.V. Team under coach Cartier finished the season also with two wins and 10 losses. Many fine grapplers turned out for the opening of the season and perfected their skills under the leadership of Coach Cartier.

Baseball

North Babylon, about to enter its second year in Varsity League A-2 competition, will rest most of its weight upon the capable pitching of its hurlers.

Returning this year will be pitchers Bob Forella, George Abbruscato, Dick Walsh and John Bowman who hope to insure a winning season.

Although pitching is essential to a team's play it makes up but one-ninth of the team as a whole. More than sixty boys signed up for the baseball team this year

and a wide variety of players are competing for their favorite positions. Many veterans are also returning to hold their positions from last year, among them are A. Kothe, J. Licata, E. Costello, and A. Fariello.

Losing some strength from the team via graduation last year, Coach Kaskoun is depending on last year's capable J.V. players to add to the backbone of the team to come through with a successful season.

Now, hold on, fellows, there can only be one pitcher on the mound at a time!

All right, now which one of us is going to pick it up? *Left to Right:* Costello, Wall, Morabito, Matthews, Kothe.

Track

On your mark, get set, go! And go they did. With a year of A-2 competition behind them, the track members were out for early practice to get in shape for what might turn out to be a highly successful season.

The heavy turnout offers a wide variety of skills in the events of the outdoor sport. Heaving the heavy shotput this year will be hefty Phil Robilotto. Letting fly with the discus will be Paul Leopold and returning for another successful pole vaulting season will be Dick Lee.

Also returning this year will be smiling Dave Reynolds and veteran Bob Wisniewski in the distance runs.

There's one in every crowd!

They're off and running at North Babylon!

STRIKE! And Coach R. Camarda's keglers are off in a flash! Many capable bowlers came out for the team and have proved themselves on the lanes.

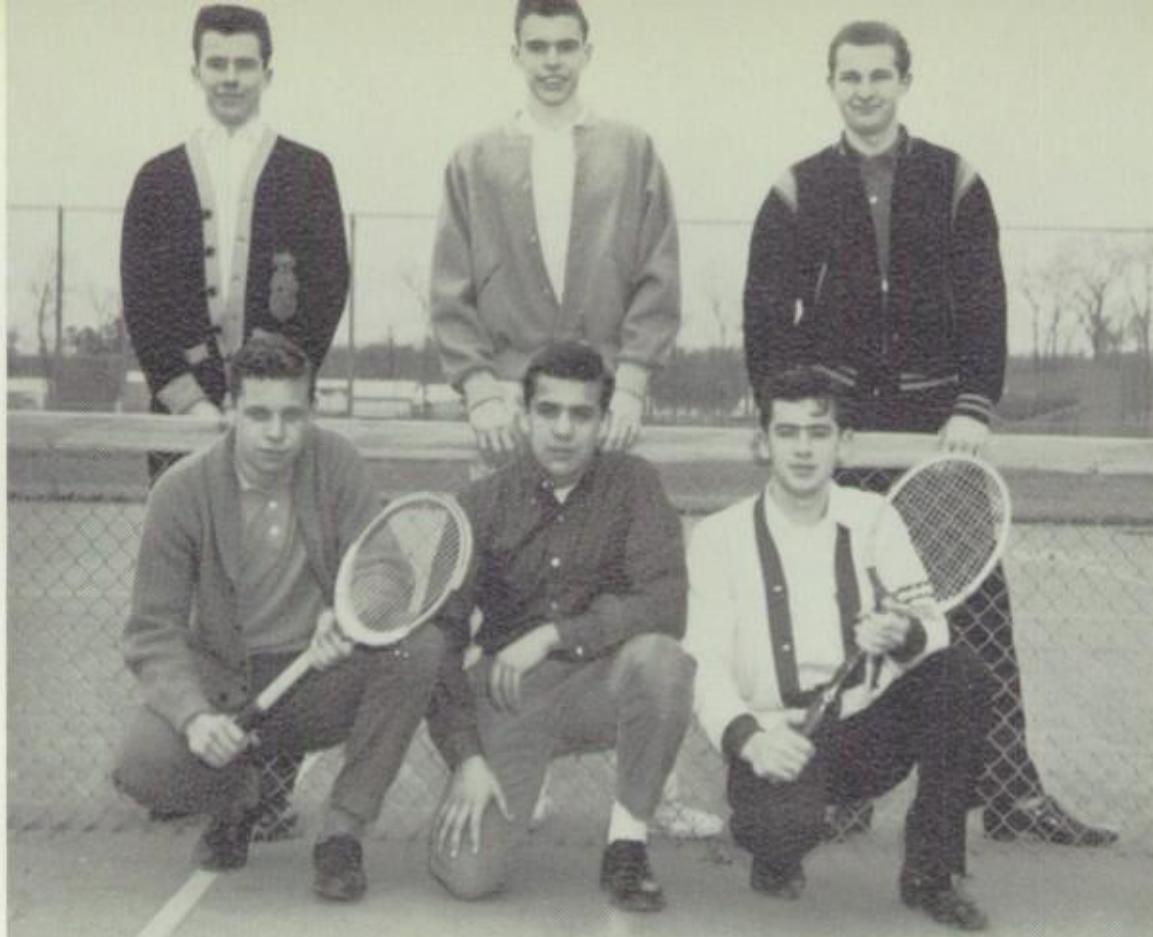

Leading the team and the league was Jay Lipman. He maintained the highest average (176) and the highest series (620) in the league. Backing up Jay Lipman was Al Panzera and captain John Soika.

Toward the end of the season the keglers sported a varsity record of 34-11 and the J.V. came through with a 14-1 record.

Then, on March 25, 1961, North Babylon with a new high team total of 1,008 pins took the County Championship. Congratulations to Coach Camarda and the team for bringing to North Babylon our first County Championship.

Girls Sports Awards

North Babylon is a member of the Suffolk County Girls' Athletic Association (S.C.G.A.A.), and follows its prescribed point system for giving girls' sports awards, the highest of which is the Gold Key.

The number of points which a student can earn depends upon her attendance, team membership in competition with other schools, and intramural participation. Each year those students who have reached one, or more, of the four pre-established goals, are presented with

their awards.

The first award given is the Numeral, which stands for the achievement of 125 points. As the girl advances to 250 points she will be awarded the Shield. Students who are devoted sports enthusiasts, and have earned 400 points, are eligible for the letter award. Finally, when the necessary total of 600 points has been accumulated, the deserving girl is presented with the long treasured Gold Key.

Even though field hockey is one of the most difficult of all girls' sports, its popularity was proven by the large number of girls who attended practice. Because of the large number of girls, it was necessary to limit practice to one class per week. With this restriction the girls were given a greater opportunity to develop their skills and to participate in actual intramural games.

North Babylon was well represented at the S.C.G.A.A. playday. The school honor team captured second place by defeating Brentwood by a score of 1 to 0, South Huntington by 3 to 1, and played Copague to a scoreless tie. The best player award was presented to Carol Deders, a Senior.

Volley
In the beginning of the winter season one of the many extracurricular activities offered is volleyball. From the great number of enthusiastic girls participating in the intramural games and practices, a talented honor team was chosen.

This year the North Babylon honor team, under the able leadership of Miss E. Mullin, fulfilled that long desired prospect of placing a new banner upon the gymnasium wall. Although our school is but two years old, the girls that are taking part in the S.C.G.A.A. program have sparkled with the winning of our first banner. This year's honor team sped to victory by defeating Huntington, Brentwood, South Huntington and Port Jefferson.

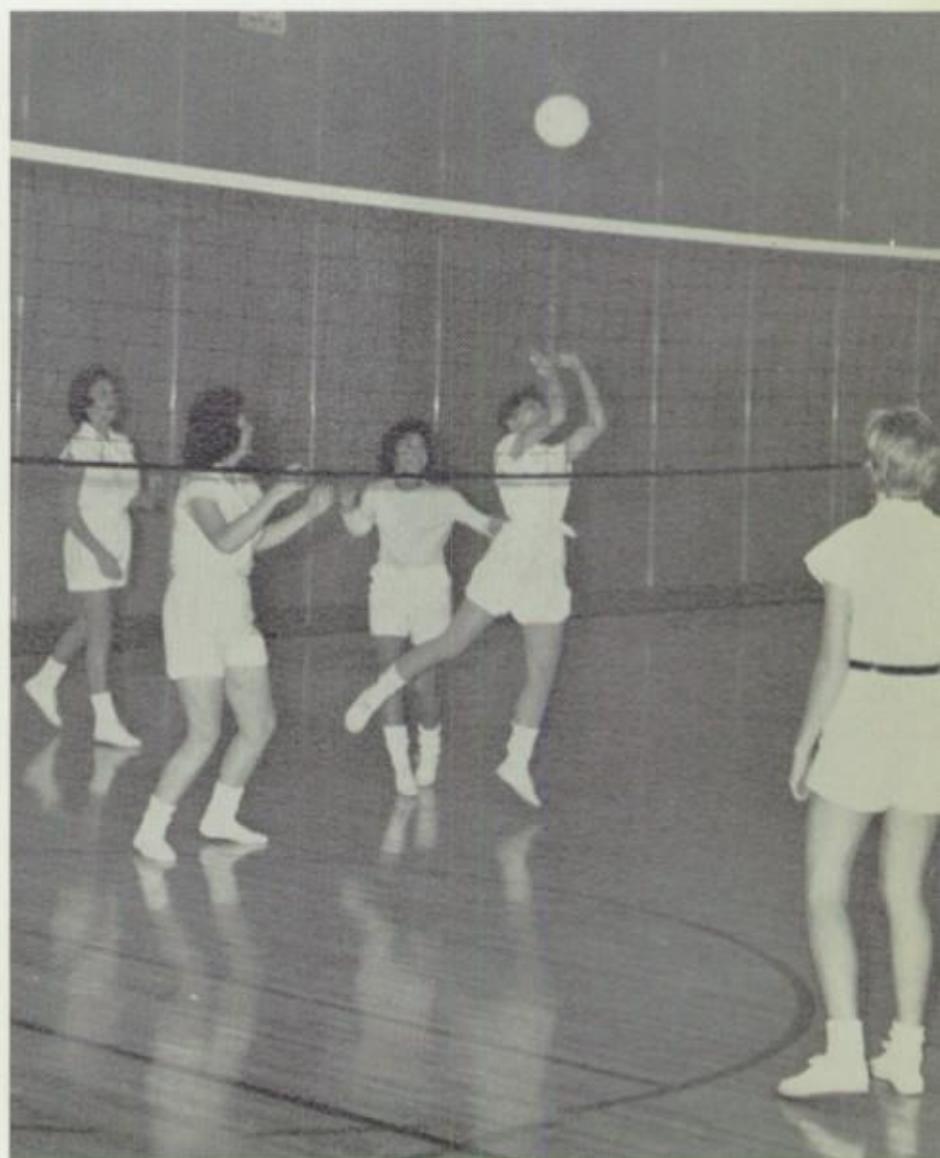

Nancy Freriks, as captain, and her team of girls presented a fine display at the playday on December 17th at Northport High School. Along with Nancy, Geri Terito exhibited fine playing skills and both were presented with the "Most Valuable Player Awards" at the assembly held after the playday luncheon.

Basketball

The favorite sport of many of the high school girls is that of basketball. The basketball season starts in December and lasts until the playday which is usually in February or March. In this short period of time the Sophomores, Juniors, and Seniors form teams and compete in intramural games. Members of the Junior, Senior and Sophomore class honor teams are picked from these intramural games. The girls are chosen for their skill, team work, and desire to learn. This year the Senior class honor team defeated the Junior and Sophomore classes.

In the play-day North Babylon defeated Bayshore, Copiague, and Central Islip, but was defeated by West Babylon.

Individual

In team sports, such as volleyball, basketball and softball, the participants do not have very much chance to demonstrate individual talents. Following the basketball season, comes the chance for the girls to seek an individual sport.

Bowling is the most popular of the individual sports. This year bowling was held at Viking Lanes and many girls attended the intramurals. Bowling is a sport where the girl not only enjoys herself, but tries to improve her score.

As different approaches and techniques must be mas-

tered for success in bowling, so must the participants in tennis master various serves and strokes for a good game. For instance, the forearm stroke and the backhand stroke are two of the basic skills that are required. Tennis provides great enjoyment for the learner as well as for the more advanced tennis player.

Archery is truly the sport of skill, practice, strength, and patience. According to the ability of the individual, archery can be either easy to conquer or a sport of challenge.

All right. You take Mr. Angelos and I'll take Mr. Camarda.

TENNIS—(L. to R.): N. Freriks, B. Tas-
ker, P. Cannini, J. Johnson, E. Polino, M.
Popovich, E. Shanks.

Sports

Among the girls of most all schools, track and field appears to be the least popular. The reason might be that the girls regard "track and field" more as a sport for the boys. However, they are in error. A girl participating in track and field can be said to have a great deal of skill and a body in excellent physical condition.

This year the individual sportsday, which N.B. has entered for the second year, was held in May at Port Jefferson High School. North Babylon entered girls in all individual sports to compete against other schools for awards.

OOPS! Sorry...

but you said you wanted to part your hair for a change.

Tumbling and Apparatus

Above Left—"Are you ticklish, Judy Benatar," asks Miss Mullin.

Above Center—Steady as she goes, Barbara Dragonette!

Left—Anita Welden and Sue Wendenburg demonstrate good form on the parallel bars.

Black and blue marks, sprained wrists and sore muscles are often the effects endured by the girls who participate in the activities of tumbling and apparatus.

Even with these discouraging factors there are still many girls willing to make the sacrifice for the sake of perfection of the sport. The girls have great hopes for the apparatus meet this year, which was won by Babylon High School last year. The girls picked to represent North Babylon in the meet are Karen Hartmann on the trampoline, Eleanor Lingner on the horse, Elaine Babb on the mats, Barbara Tasker on the parallel bars and Barbara Dragonette for all-around.

"Don't all catch me at once!" calmly exclaims Karen Hartmann.

SOFTBALL INTRAMURAL TEAMS—*Top Row, (L. to R.):* E. Ames, M. Cavallary, R. Philippin, L. Weber, C. Philippin, N. McGee, B. Boehm, J. Latsch, E. Polino, P. Bongiovanni, S. Curtin, G. Terito, B. Softball

Softball, an active and invigorating game, holds many girls under its spell. Last year in the softball playday, held at Heckscher State Park, the girls honor team defeated Port Jefferson, lost to Bayshore and tied Huntington. This year with the addition of the sophomore class, the girls are looking forward to a successful season.

FRESHMAN CLASS 1957-58

We were now Freshmen—September 1957, and we were only the second class to step into high school in North Babylon. We had just gotten our first toe hold on maturity, and we began exercising a bit of responsibility in electing one of our fellow classmates to the position of Vice President in the Student Council. The Freshman Dance was held in October (as our first high school dance) and in January the Freshman-Sophomore dance provided an opportunity for us to socialize with our oh-so mature upperclassmen.

The year progressed, history saw more and more workers coming from our Class into the Growler and going out for sports, which began with Soccer and ended with Baseball in the spring.

We saw many new subjects for the first time, such as Spanish (who could forget Mr. McKee's version of Spanish "Beisbol?") and Algebra.

In December the choir made its debut by presenting a holiday concert.

After the Oasis of the Christmas vacation in the middle of the school year we came back to face the music in the form of our first really hard hitting mid-terms. They were followed up by the report cards. By now we had realized that high school was far, far different than grade school! (who ever believed it when they told us so in the 7th and 8th grades!)

March saw our second class dance as well as the school's three act play "Time Out for Ginger" in which Judy Benatar, Sam LoVetro and Brian Cruse starred. Also in March, awards were presented to members of our class as well as members of the 8th and 10th grades for achievements in Sports and Scholastics.

The celebration topping the year came in May in the form of our Graduation Dance which the newspaper described as a "beautifully done affair."

SOPHOMORES 1958-59

After struggling through the Freshman year, we returned to school in the fall of 1958 more matured and finally, it seemed, ready for the challenge of high school.

For the first time in North Babylon, honors classes were introduced to the curricula, and also for the first time in North Babylon Driver Education was taught, though it was not available for us to take until our next, the Junior year. Physics, taught by Mr. Wolfson, was also brought, for the first time, to North Babylon.

Bob Wisniewski and Don Abrams shined in the Cross Country meets, and the J.V. Soccer team ended an impressive season with a 9-1 record and six ties. The outstanding sportsman award for the school year 57-58 went to Bob Forella for his work on the Soccer team.

By this time we were already realizing that we were soon to enter a new building of our own. In February the Growler covered a story on the progress of the new school structure showing us how far construction had come along. The Growler itself made drastic changes in format and approach, maturing considerably.

In one of the most hilarious events of the year the Faculty and student basketball squads split a double header. The men's faculty losing to the J.V. cagers 54,38 and the women teachers beating the girls' team by a score of 30-26.

Winning teams in both Basketball and Wrestling added to the distinctions of our new school and stars such as Bob Forella (basketball), Arnie Fariello (baseball), and Bob Wisniewski (track) shone in their respective fields.

JUNIORS 1959-60

As Juniors we entered the halls of a brand new building on an early September morning. We now faced with real seriousness (most of us) the fact that college or the work-a-day world was in front of us now.

Senior History

Continued from P. 136

One of the first firsts of the year was the formation of the Student Association, replacing the old Student Council, under the direction of Mr. Miller. Its president was our own Ginger Albino.

Our Football team completed an undefeated season to the joy of all, winning six straight, and Varsity Soccer with the outstanding efforts of Bob Wickert, Lance Penney and Emil Sommerlad was fairly successful.

One of the closest games of the season was between the Senior and the Junior High Faculty. The Senior Faculty taking the match with a thrilling comeback, 40-39. The club program was introduced in the winter, and soon became popular with the students. In February the school store opened for the first time, selling a variety of products.

Wrestling terminated a successful season helped by John Schneider; and in Bowling, Ray Holzer was our representative on a winning team.

On April 2 we held our long awaited Prom, "Bali Hai" and the newspaper reported "Tropical Splendor Seen by Juniors, Bali Hai a South Seas Paradise." Mollie Lou King was crowned queen of the prom, and her attendants were Darron Bonawandt, Margaret Halas, Ginger Albino, and Sharon White.

J.V. Baseball finished well, and Varsity did well in its first year of league competition, and most important showed promise for the year to come.

In June, the first Blazer made its appearance, and though slightly overdue, was warmly welcomed by the students. On the 27th we said goodbye to the class of '60 as they left North Babylon as Alumni.

SENIORS 1960-61

As first we hardly realized we were at the end of high school. Seniors! It didn't feel any different than any other year, but we soon began to feel the change as the deluge of activities started. We elected our class officers, Emil Sommerlad, President, Arnie Fariello, Vice President, Agnes Welutowicz, Secretary, Susan Conroy, Treasurer, and Elaine Mangerie, S.A. Representative. In November the first big event of the school year took place in the form of the National Honor Society Inductions. Pat Kenah, Theresa Meyer, Judy Curtin and Walter Haglund were inducted. Also in the fall we had our finalist, Yvonne Bell, in the Suffolk County Oratorical Quarter-Finals. Our gridsters went into their first League A-1 varsity competition and seniors led in showing high attendance records at game.

In February we had our long awaited first school play, "Girl Crazy," which proved to be a great success. It was staffed heavily by seniors such as Dom Valenti, Brian Cruse, Judy Benatar and Dave Raskin (principals) and Jim Ainslie (stage manager).

The Christmas Concert in December demonstrated the choral prowess of many of our students and was another success.

By February our Bowling Keglers were well on their way to a fine season and in March they corralled the County Championship, a truly exceptional team. Senior Jay Lippman had the highest county average.

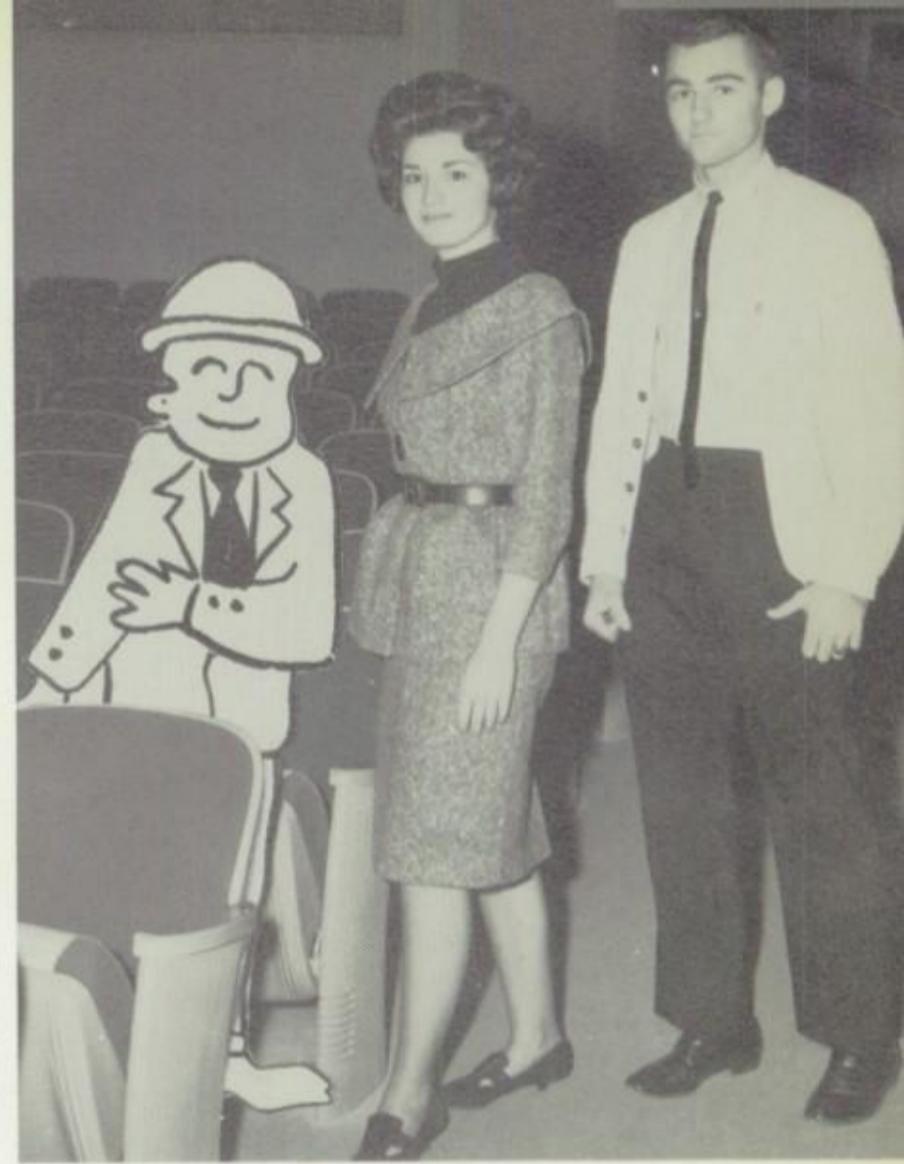

Then, the biggest week in all our high school years rolled along—Senior Week. Monday we were measured for caps and gowns and had a party-dance. Tuesday the over-whelmingly successful Junior Revue was presented taking us "Around the World in 80 minutes." On Wednesday the students matched the teachers in a wild basketball game in the afternoon. The long awaited Senior Dinner proved to be a lot of fun for all involved Thursday night, and Friday we "turned about" led by Jim Ainslie as Principal, Virginia Albino as Assistant Principal, Joe Licata as Attendance supervisor and Gail Inzerillo as Librarian.

We anticipated the success of our Senior Prom with eagerness, and we could almost feel the night in late June when we would say our last goodbyes to North Babylon Senior High School and "go to face the world unafraid," in the words of our Alma Mater.

The pictures on these two pages show in part the comprehensive nature of North Babylon Senior High School. It has been our desire in the 1961 BLAZER to explain what makes a school. Beyond our use of Noby to illustrate the physical making of a school, it is evident that you, the student, together with the administrators, the teachers, the non-teaching staff, the courses, and the activities comprise the living school. a living thing must grow, and to insure the vitality of the school organism, experimentation is constantly taking place. The use of educational TV, audio-visual aids, the team teaching techniques, new concepts of language learning have become a reality at North Babylon. The comprehensiveness of beneficial courses, the tried and true methods of instruction as well as the sound newer developments in education insure the continuing growth of North Babylon Senior High School.

To The Faculty

We are happy now in knowing that in the coming years you will be teaching all our little brothers, sisters and neighbors as well as you have taught us, and we are sad because we know that now the parting of the ways has come.

Putting aside all the past kidding that has been done, we want to tell you how much we have appreciated your instruction, assistance, guidance and friendship. Without such an excellent faculty we would be far less today than we are.

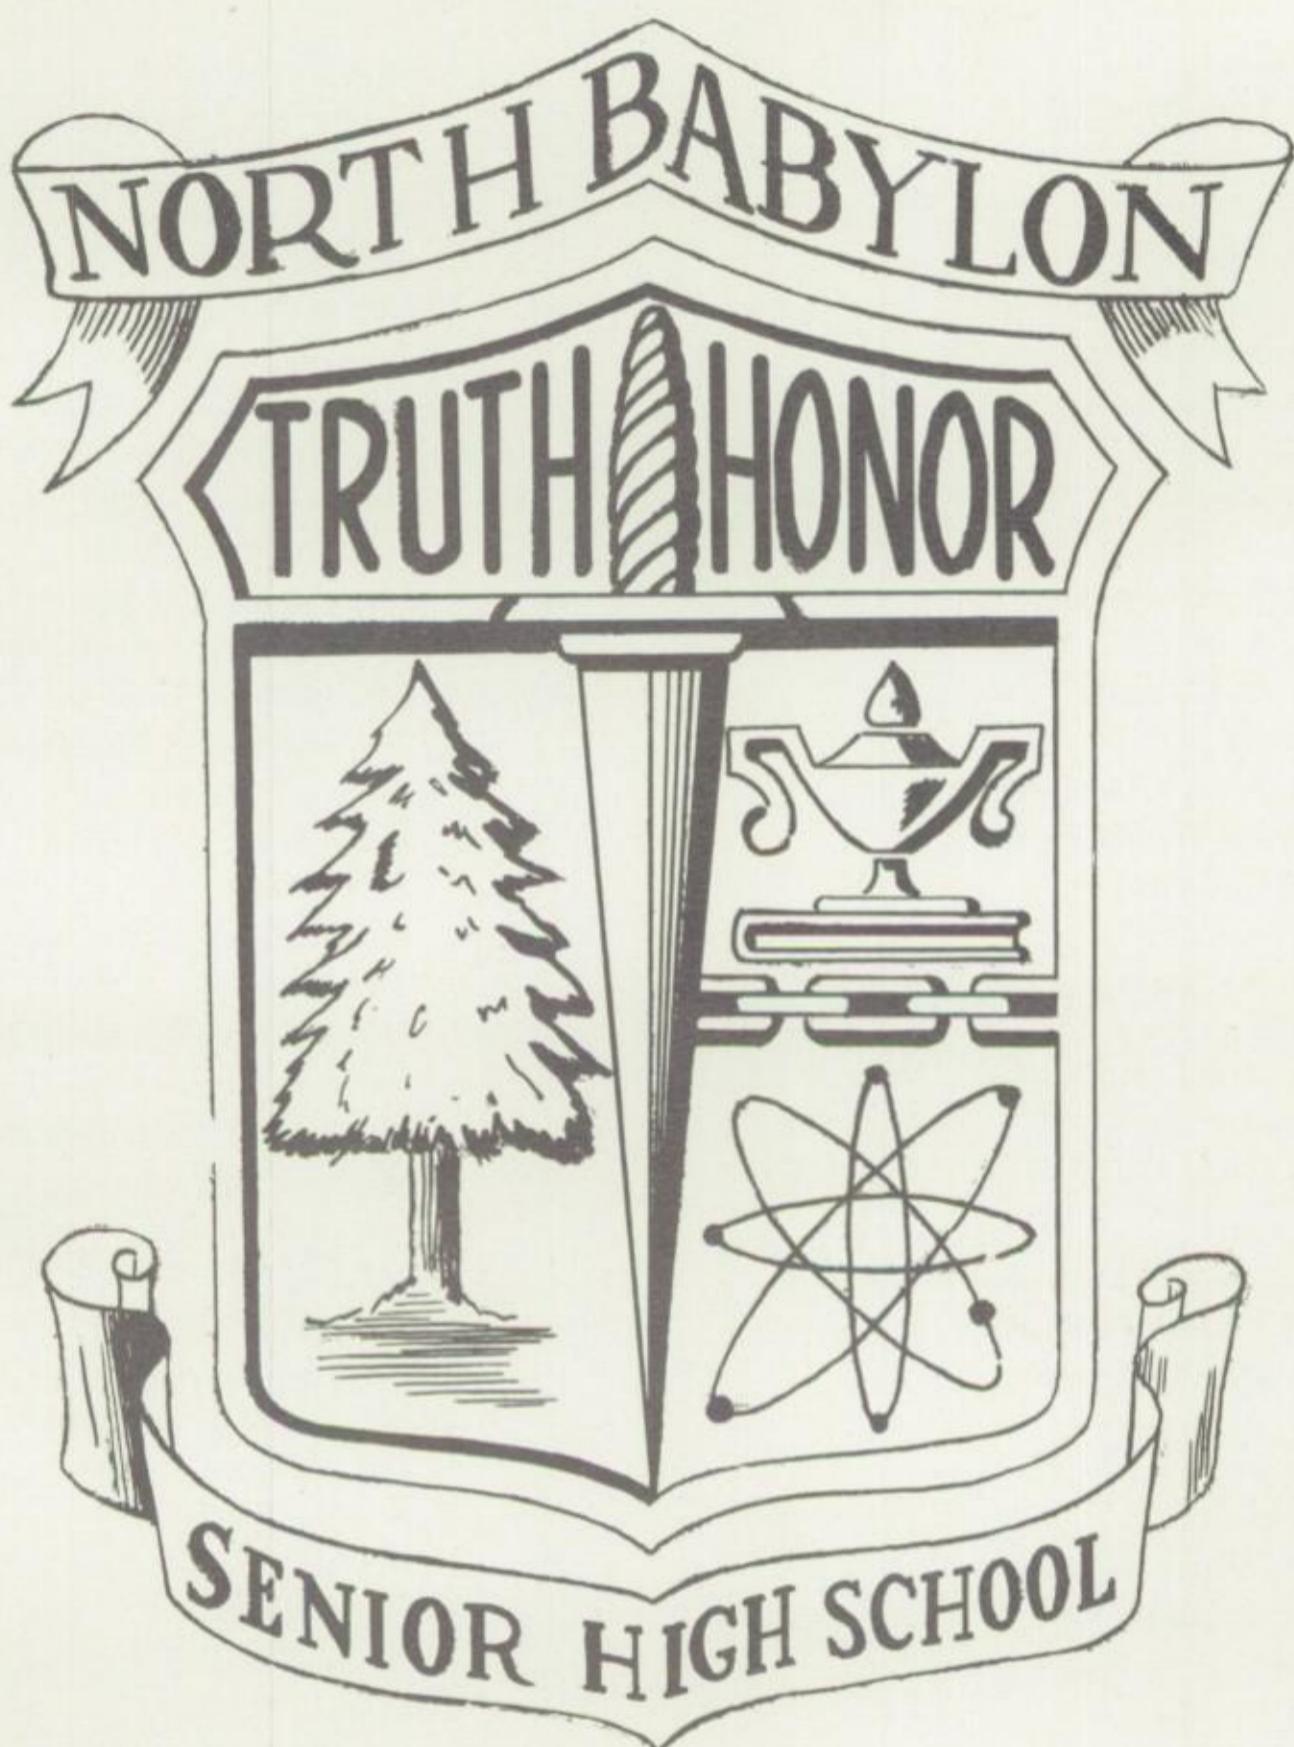

In gratitude and friendship, we dedicate this page to you, The Faculty.

Peggy.

There are 3 things you in life you must do
LIE STEAL SWEAR.

When you lie - lie
in a bed of roses.

When you steal - steal
away from bad company.

When you swear - swear
